## A - Addendum #1

### Whistler Complete Communities Geospatial Land Use Assessment

RFP Number: P06423-2024

#### **Question 1**

It would be helpful for this process and / or future processes if the RMOW would be willing to share why the solicitation was cancelled and reissued.

#### **Answer**

The RMOW did not receive a satisfactory proposal, therefore in accordance with Article 16 of the RFP issued March 14, 2024, the RMOW terminated the competition without award.

#### **Question 2**

We are wondering if you can provide more context as to why it was re-posted and if there are any changes from the original posting. That would be helpful for us to understand the context for this and help inform our decision.

#### **Answer**

See answer to Question 1. The RFP has been re-posted with no changes from the original RFP.
