    - i. as part of the construction and development of any such building or structure, the Owner also designs and constructs to completion, in accordance with a building permit issued by the Municipality and in accordance with any development permit issued by the Municipality, at least the number of Employee Units on the Land specified in the General Instrument; and

  - b. the number of Dwelling Units on the Land will not exceed the number of Dwelling Units specified in the General Instrument;
  - c. the Owner will meet or exceed the construction standards for Employee Units as specified by the Municipality in a development permit issued by the Municipality in respect of development on the Land;
  - d. the Owner will at all times ensure that the Land is used and occupied in compliance with all statutes, laws, regulations, and orders of any authority having jurisdiction and without limiting the generality of the foregoing all bylaws of the Municipality and all federal, provincial, municipal or local laws, statutes or ordinances relating to environmental matters, including all rules, regulations, policies, guidelines, criteria or the like promulgated under or pursuant to any such laws; and
  - e. the Owner will do everything necessary, at the Owner's expense, to ensure that this Agreement and an RFR, if required, will be registered against title to the Land in priority to all charges and encumbrances which may have been registered or are pending registration against title to the Land save and except those specifically approved in writing by the Municipality or in favour of the Municipality.

- 
3. If not all the Dwelling Units on the Land are to be used as Employee Units the owner will not apply for a discharge of this Agreement pursuant to section 6 in respect of any Dwelling Unit, and the Municipality will be under no obligation to provide such discharge, unless at the time that the Owner applies for the discharge the Owner is not in breach of any of its obligations under this Agreement and there are [insert the number of Employee Units stipulated in the General Instrument] other Dwelling Units on the Land which:
- a. are designated as Employee Units pursuant to section 4 and for which occupancy permits have been issued by the Municipality and which are and always have been used, occupied and Disposed of in compliance with this Agreement;
  - b. are not designated as Employee Units but the location of which has been approved in writing by the Municipality for use as Employee Units and for which occupancy permits have been issued by the Municipality and which are not and have never been Disposed of, used or occupied; or
  - c. are otherwise acceptable to the Municipality in its sole discretion upon conditions the Municipality considers necessary in its sole discretion, to ensure that the Owner fully complies with its obligations under this Agreement.

For greater certainty, any combination of Dwelling Units referred to in a, b and c will suffice to meet the requirements of this section 3, provided that the total of the combination of Dwelling Units referred to in a, b and c is equal to or greater than the number of Employee Units specified in the General Instrument;

4. All applications for Employee Unit designations must be made by the Owner by written notice delivered to the Municipality and are irrevocable by the Owner upon receipt by the Municipality of the written notice, but no designation is effective unless and until the Municipality confirms in writing that the location and the size of the Dwelling Unit is approved by the Municipality for an Employee Unit, acting reasonably as a local government. If in the sole discretion of the Municipality the Owner has failed within a reasonable time to make application for Employee Unit designations as required by this Agreement, the Municipality may in its sole discretion make such designations.
5. Notwithstanding the definition of "Land" in section 1 herein, for the purpose of stipulating the maximum allowable number of Dwelling Units on the Land and for the purpose of stipulating the number of required Employee Units to be constructed on the Land by the Owner pursuant to this Part II and for the purpose of sections 3, 4 and 6 herein, and for the purpose of the definition of Dwelling Unit in section 1, but for no other purposes, "Land" means the entire area of the legal parcel described in Item 2 of the General Instrument as at the date of registration of the General Instrument at the LTO.
6. Subject to section 3, at the request of the Owner and at the Owner's sole expense, the Municipality will deliver to the Owner discharges of this Agreement in registrable form for each Dwelling Unit that:
- a. is a separate legal parcel; and

- 
- b. is not an Employee Unit,

provided that, where the Land is subdivided under the Strata Property Act, the Municipality may withhold delivery of any discharges required to be delivered pursuant to this section until after the Municipality has received from the strata corporation its duly authorized agreement that it will not take any action that would result in an inability to rent the Employee Units in accordance with this Agreement or would render such rental a breach of the strata corporation bylaws.

### **PART III - USE AND OCCUPANCY OF EMPLOYEE UNITS**

7. The Owner agrees that each Employee Unit may only be used as a permanent residence occupied by Employees or Retirees, and the Owner further agrees that the number of Employees or Retirees who permanently reside in the Employee Unit must be equal to or less than the number of Employees or Retirees that the Municipality's building inspector determines can reside in the Employee Unit given the number and size of bedrooms in the Employee Unit and in light of any relevant standards set by the Municipality in any bylaws of the Municipality.
8. The Owner will ensure that each Employee Unit is continuously used and occupied as set out in section 7.
9. Notwithstanding anything to the contrary contained in this Agreement, if a potential tenant would be an Employee except for the fact that such potential tenant has not resided in the Municipality over the most recent twelve months, then the Owner may rent the Employee Unit to such potential tenant provided that the Employee Unit is rented or leased in accordance with all other requirements of this Agreement.
10. Within three days after receiving notice from the Municipality, the Owner will in respect of each Employee Unit, deliver, or cause to be delivered, to the Municipality a statutory declaration, substantially in the form attached as Schedule "A", sworn by the Owner, containing all of the information required to complete the statutory declaration. The Municipality may request such a statutory declaration in respect of the Employee Unit no more than four times in any calendar year. The Owner hereby irrevocably authorizes the Municipality to make such inquiries as it considers necessary and reasonable in order to confirm that the Owner is complying with this Agreement, and irrevocably authorizes and directs the recipient of the request for information from the Municipality to provide such information to the Municipality.
11. If the Owner cannot comply with the occupancy requirements for any Employee Unit for reasons of hardship, the Owner may request that the Municipality alter the Owner's obligations with respect to that Employee Unit on terms acceptable to the Municipality, but no such request may be made later than 30 days after the Municipality has delivered to the owner a notice of breach of this Agreement under Part VII herein. The Owner must deliver the request in writing in accordance with section 37 of this Agreement. The request must set out the circumstances of the hardship involved. The request must set out the reasons why the Owner cannot comply with the occupancy requirements, and must describe the hardship to the Owner that compliance would cause. The Owner agrees that the Municipality is under no obligation to grant any relief, and may proceed

---

with its remedies under this Agreement, and at law and in equity, despite the Owner's request or the hardship involved, and the Owner agrees that the relief, if any, is to be determined by the Municipality in its sole discretion.

#### **PART IV - DISPOSITION AND ACQUISITION OF EMPLOYEE UNITS**

12. In this Part, the following words have the following meanings:
- a. "Average Purchaser Index" means the average monthly Housing Price Index (hereinafter defined) for the 12 months immediately preceding the month of any offer to purchase the Interest of the Owner in the Employee Unit. For example, if the offer to purchase the Employee Unit is dated January 15, 2001, the Average Purchaser Index means the average of the monthly Housing Price Indices for the months from and including January, 2000 to and including December, 2000;
  - b. "Average Vendor Index" means the average monthly Housing Price Index for the 12 months immediately preceding the month in which the Interest of the current Owner of the Employee Unit was submitted for registration in the LTO (the "Old Completion Date"). For example, if the Old Completion Date was January 15, 2000, the Average Vendor Index means the average of the monthly Housing Price Indices for the months from and including January, 1999 to and including December, 1999;
  - c. "First Purchaser" means the person to whom the Interest in an Employee Unit is first transferred after issuance of the occupancy permit for the Employee Unit by the Municipality;
  - d.   - e. "Housing Price Multiplier" means the Average Purchaser Index divided by the Average Vendor Index;
  - f. "Maximum Price" for the sale of the Employee Unit to the First Purchaser means the amount determined by multiplying the Gross Floor Area of the Employee Unit by \$155. In addition to the Maximum Price payable by the First Purchaser, the Owner that sells the Employee Unit to the First Purchaser will be entitled to charge the First Purchaser the net GST payable by the First Purchaser and the fee paid by the Owner to obtain the home warranty insurance required by the Home Protection Act.
  - g. "Maximum Price" for the sale of the Employee Unit by the First Purchaser or a Subsequent Purchaser (hereinafter defined) means the greater of:

- 
- i. the value for the Employee Unit set out in Item 2(b) of the Form A - Freehold Transfer registered in the LTO transferring the Interest in the Employee Unit to the First Purchaser or a Subsequent Purchaser, as the case may be (the "Previous Sale Price"); and
  - ii. the Previous Sale Price multiplied by the Housing Price Multiplier.

Notwithstanding anything to the contrary contained in this Agreement, if for any reason whatsoever the Housing Price Multiplier cannot be determined, the Maximum Price means the Previous Sale Price;

Examples of how to calculate the Maximum Price for the sale of an Employee Unit by the First Purchaser or a Subsequent Purchaser are attached to this Agreement as Schedule "B", which forms part of this Agreement; and

- h. "Subsequent Purchaser" means a person who purchases the Employee Unit from the First Purchaser or from someone who owned the Employee Unit after the First Purchaser.
13. The Owner will not Dispose of the Interest in an Employee Unit except in accordance with the terms and conditions set out in this Agreement and the RFR.
  14. The Owner will not accept any offer to purchase the Interest in an Employee Unit for a purchase price exceeding the Maximum Price.
  15. The Owner will not permit the Interest in an Employee Unit to be disposed of by sublease or assignment of a Tenancy Agreement unless such subletting or assignment is done in compliance with this Agreement.
  16. The Owner will give prior written notice of this Agreement to any person to whom it proposes to Dispose of the Interest in an Employee Unit.
  17. The Owner must not rent or lease any Employee Unit except to an Employee or Retiree in accordance with section 7 and except in accordance with the following additional conditions:
    - a. the Employee Unit will be used or occupied only pursuant to a Tenancy Agreement;
    - b. the monthly rent payable for the Employee Unit will not exceed the rent, rounded to the nearest dollar, determined by multiplying the Gross Floor Area by the Original Rent. Subject always to the provisions of the Residential Tenancy Act (British Columbia), the Owner may increase the rent payable for the Employee Unit annually, beginning with the first anniversary of the day on which the occupancy permit was issued by the Municipality for the Employee Unit, and thereafter on each successive anniversary date, by an amount determined by multiplying the rent payable for the Employee Unit at the time of the proposed rent increase by the percentage change in the CPI since the last anniversary date;

- 
- c. the Owner will not require the Tenant to pay any extra charges or fees for use of any common property, limited common property, or other common area, or for sanitary sewer, storm sewer, water utilities, property taxes. For clarity, this section does not apply to cablevision, telephone, other telecommunications, gas utility or electricity utility fees or charges;
  - d. the Owner will attach a copy of this Agreement to the Tenancy Agreement;
  - e. the Owner will include in the Tenancy Agreement a clause requiring the Tenant to comply with the use and occupancy restrictions contained in Part III of this Agreement;
  - f. the Owner will include in the Tenancy Agreement a clause entitling the Owner to terminate the Tenancy Agreement in accordance with the Residential Tenancy Act if the Tenant uses or occupies, or allows use or occupation of, the Employee Unit in breach of the use or occupancy restrictions contained in this Agreement;
  - g. the Tenancy Agreement will identify all occupants of the Employee Unit, and will stipulate that anyone not identified in the Tenancy Agreement will be prohibited from residing at the Employee Unit for more than 30 consecutive days in any calendar year;
  - h. the Tenancy Agreement will provide for termination of the Tenancy Agreement by the Owner in situations where the Employee Unit is occupied by more than the number of people the Municipality's building inspector determines can reside in the Employee Unit given the number and size of bedrooms in the Employee Unit and in light of any relevant standards set by the Municipality in any bylaws of the Municipality;
  - i. the Tenancy Agreement will provide that the Owner will have the right, at the Owner's option, to terminate the Tenancy Agreement should the Tenant remain absent from the Employee Unit for three consecutive months or longer, notwithstanding the timely payment of rent;
  - j. the Tenancy Agreement will provide that the Tenant will not sublease the Employee Unit or assign the Tenancy Agreement; and
  - k. the Owner will deliver a copy of the Tenancy Agreement to the Municipality upon demand.
18. The Owner will terminate any Tenancy Agreement where the Tenant uses or occupies, or allows use or occupation of an Employee Unit in breach of this Agreement, such termination to be in accordance with the terms of the Tenancy Agreement and the Residential Tenancy Act (British Columbia).
19. The Municipality may, in its sole discretion, provide written consent to the Owner from time to time to do something that is otherwise not permitted under this Agreement, on such terms and conditions as the Municipality considers desirable.
-

- 
20. If the Owner is leasing or renting one or more Employee Units, the Owner will, forthwith upon request by the Municipality, and from time to time as the Employee Units become vacant, identify to the Municipality which Employee Units are vacant and available for occupancy and the Owner will make best efforts to lease or rent the vacant Employee Units to qualified applicants on the Municipality's applicant list.
  21. The Owner will be solely responsible for screening Tenants to determine whether or not they qualify to occupy the Employee Unit in accordance with this Agreement notwithstanding that the Employee Unit may be leased or rented to someone from the Municipality's applicant list. For greater certainty, the Owner agrees that the Municipality is not responsible for, and makes no representation to the Owner regarding, the suitability of any prospective tenant on the Municipality's applicant list.

#### **PART V - CAPITAL IMPROVEMENTS**

22. If the Owner has made capital improvements to the Employee Unit that required the issuance of a building permit by the Municipality, then the Municipality may, in its sole discretion, permit the Owner to increase the sale price for the Employee Unit up to an amount commensurate with the value of the capital improvements. If the Owner is dissatisfied with the value of the improvements as determined by the Municipality, the Owner may, at its expense, engage a Quantity Surveyor to establish the value of such improvements, but the Municipality will in no way be bound by the value established by the Quantity Surveyor, and the Municipality will, in its sole discretion, determine the permitted increase, if any, in the sale price. For greater certainty, the Municipality will not permit any increase in the sale price for improvements that have been made without a building permit.

#### **PART VI - DEMOLITION OF EMPLOYEE UNIT**

23. The Owner will not demolish an Employee Units unless:
  - a. the Owner has obtained the written opinion of a professional engineer or architect who is at arm's length to the Owner that it is no longer reasonable or practical to repair or replace any structural component of the Employee Unit, and the Owner has delivered to the Municipality a copy of the engineer's or architect's report; or
  - b. the Employee Unit is damaged or destroyed, to the extent of 40% or more of their value above their foundations, as determined by the Municipality in its sole discretion, acting reasonably, and
  - c. a demolition permit for the Employee Unit has been issued by the Municipality (unless the Building has, or the Dwelling Units have been destroyed by an accident, act of God, or sudden and unanticipated force) and the Employee Unit has been demolished under that permit.

Following demolition, the Owner will use and occupy the replacement Dwelling Unit in compliance with this Housing Agreement, and sections 2.c., 2.d. and 2.e. herein will apply to the construction of the replacement Dwelling Unit to the same extent and in the

---

same manner as those sections apply to the construction of the original Dwelling Unit, and the Dwelling Unit must be approved by the Municipality as a Employee Unit in accordance with section 4.

## **PART VII - DEFAULT AND REMEDIES**

24. The Owner acknowledges that the Municipality requires employee housing to attract employees to work for local businesses and that these businesses generate tax and other revenue for the Municipality and economic growth for the community. The Owner therefore agrees that, in addition to any other remedies available to the Municipality under this Agreement or at law or equity, if an Employee Unit is used or occupied in breach of this Agreement or rented at a rate in excess of that permitted under this Agreement, the Owner will pay, as a rent charge under section 25, the Daily Amount to the Municipality for every day that the breach continues after 30 days written notice from the Municipality to the Owner stating the particulars of the breach. The Daily Amount is increased on January 1 of each year by an amount calculated by multiplying the Daily Amount as of the previous January 1 by the percentage increase in the CPI between that previous January 1 and the immediately preceding December 31. The Daily Amount is due and payable immediately upon receipt by the Owner of an invoice from the Municipality for the same.
25. The Owner hereby grants to the Municipality a rent charge under s. 219 of the Land Title Act (British Columbia), and at common law, securing payment by the Owner to the Municipality of any amount payable by the Owner pursuant to this Agreement. The Owner agrees that the Municipality, at its option, may enforce payment of such outstanding amount in a court of competent jurisdiction as a contract debt, by an action for and order for sale, by proceedings for the appointment of a receiver, or in any other method available to the Municipality in law or in equity.
26. If the Employee Unit is sold for a purchase price exceeding the Maximum Price in contravention of this Agreement, the Owner will pay the excess (the "Excess Amount") to the Municipality within 30 days after written demand is made by the Municipality. The amount remaining unpaid after the 30 days will bear interest at the Prime Rate calculated from the due date until the date paid, compounded annually not in advance. The Owner further acknowledges and agrees that the Municipality's Excess Amount is fair and reasonable and is not to be construed as a penalty or forfeiture but as liquidated damages.

Miscellaneous
---------------

Description of Components:

**Wiring:** The connection of the luminaire is done using a terminal block connector 600V, 85A for use with #2-14 AWG. wires from the primary circuit, located inside the housing. Due to the inrush current that occurs with electronic drivers, recommend using a 10Amp time delay fuse to avoid unwanted fuse blowing (false tripping) that can occur with normal or fast acting fuses.

**Hardware:** All exposed screws shall be complete with Ceramic primer-seal basecoat to reduce seizing of the parts and offer a high resistance to corrosion. All seals and sealing devices are made and/or lined with EPDM and/or silicone and/or rubber.

**Finish:** Color to be textured dark blue (BE2TX) and in accordance with the AAMA 2603 standard. Application of polyester powder coat paint (4 mils/100 microns) with ± 1 mils/24 microns of tolerance. The Thermosetting resins provides a discoloration resistant finish in accordance with the ASTM D2244 standard, as well as luster retention in keeping with the ASTM D523 standard and humidity proof in accordance with the ASTM D2247 standard.

The surface treatment achieves a minimum of 3000 hours for salt spray resistant finish in accordance with testing performed and per ASTM B117 standard.

**Pole Information:** (R5@6), Bracket to be side mounted on a round pole from 5" min. to 6" (127mm min. to 152mm).

**LED products manufacturing standard:** The electronic components sensitive to electrostatic discharge (ESD) such as light emitting diodes (LEDs) are assembled in compliance with IEC61340-5-1 and ANSI/ESD S20.20 standards so as to eliminate ESD events that could decrease the useful life of the product.

**Quality Control:** The manufacturer must provide a written confirmation of its ISO 9001-2008 and ISO 14001-2004 International Quality Standards Certification.

**Certification:** The manufacturer will have to supply a copy of approval products certificate, CSA or UL.

**Vibration Resistance:** The GPLS meets the ANSI C136.31, American National Standard for Roadway Luminaire Vibration specifications for Bridge/overpass applications (Tested for 3G over 100 000 cycles).

The GPLS meets the California Test 611, Testing durability of mast arm mounted luminaires, specifications (a 2 000 000 cycles test).
