

Friendship Pact

At the end of a week of fruitful exchanges between our two Resort Communities, we, Mayors, undersigned, proclaim our will to conclude a pact of friendship linking the Resort Municipality of Whistler and the municipality of Les Deux Alpes, in testimony of a relationship of understanding, mutual interest and friendship.

We congratulate ourselves for this week of meetings between representatives of our communities on topics as varied as the governance of resorts, tourism promotion, events, the management of ski areas, leisure real estate, employee housing, trade, sport, culture and education. On these subjects we have been able to identify many common points but also differences, from which we can draw rich lessons.

We express our sincere desire and hope that these meetings will be renewed and constitute the first step of a friendship that will become useful and fruitful for all, and which could lead us to be sisters resorts.

Aware of the benefits brought by professional and personal relations between their respective populations, our communities have high hopes for the development of economic and tourist exchanges, as well as cultural and sporting exchanges, as part of a deep and rich friendship.

We commit ourselves to placing our actions within the framework of sustainable development for the preservation of the quality of life of future generations.

We solemnly declare, on behalf of the citizens we represent, to participate in the development of understanding, respect and friendship between the peoples of Canada and France and between the people of our two resort communities, in fact what we put on this document our signatures and the seal of our municipalities.

Les Deux Alpes, the 3rd July 2018

M. Wilhelm-Morden
