Addendum 1

Request for Proposal 2023-5352 – Sundial Sidewalk Replacement - Whistler Village

REFERENCE: Questions/notes

QUESTION & ANSWER:

Q. Does the RMOW have a preference on how pedestrians are managed?

A. The RMOW would prefer that the pedestrian flow is maintained on the sidewalk which would involve working on ½ the sidewalk at a time. The RMOW understands that this might be difficult operationally. In that case we would accept that the pedestrians may need to be detoured onto the roadway necessitating the use of Traffic Control Persons to manage the traffic and pedestrians.
