

Resort Municipality of Whistler - Low Carbon Buildings plan

Industry workshop agenda

Date: November 24, 2021

Time: 9 – 11 a.m. PST

Presenters: Luisa Burhenne, Resort Municipality of Whistler; Madi Kennedy and Marshall Duer-Balkind, Integral Group

Objectives:

- Provide an overview of Resort Municipality of Whistler's climate targets and climate action related to the building sector
- Provide an update on the proposed approach and timelines for BC Energy Step Code implementation with a low carbon energy systems pathway
- Seek feedback from the industry on the proposed approach and key considerations for implementation and compliance.

AGENDA	
Welcome and session orientation	10 minutes
Background <ul style="list-style-type: none"> • Overview of Resort Municipality of Whistler's climate targets and low-carbon building policies • Summary of leading jurisdictions' approaches to Step Code implementation • Summary of Whistler's proposed Step Code amendments with a low carbon energy systems pathway • Overview of upcoming provincial GHG intensity regulations for new constructions 	30 minutes
Breakout group discussion #1 <ul style="list-style-type: none"> • Discussion topic: Opportunities and barriers to implementing low-carbon energy systems and achieving higher levels of building performance in new construction 	35 minutes
Breakout group discussion #2 <ul style="list-style-type: none"> • Discussion topic: Key considerations for implementation and phase-in for a low carbon energy systems pathway in Step Code 	35 minutes
Next steps	10 minutes
