Addendum 3 - RFP A10201 - 2023 Smart Tourism Vision Development

Question: What is the purpose/ intent of section 3.2 “Create an inventory of current activities/ initiatives already underway that support the Smart Tourism vision”, is the intent to do this inventory after the vision is developed so we have a sense of who’s already aligned?

Answer: Yes, this exercise would be expected to compile all the activities and initiatives that are currently being implemented in Whistler that move towards our Smart Tourism vision. The RMOW expects that this work would follow the workshops so that we have a complete Smart Tourism Vision to guide our work.
