1.0 OVERVIEW OF THIS RFP

1.1 Purpose of this RFP

The RMOW is seeking Proposals from qualified Proponents to undertake the “Whistler Complete Communities Geospatial Land Use Assessment” (the Project). The Project is supported by a grant from the Union of B.C. Municipalities (UBCM). The Project will be managed by the RMOW’s Planning Assistant and GIS Supervisor, with support from the Manager of Planning – Policy (RMOW Project Team).

The purpose of this document is to provide sufficient background and scope information to receive detailed proposals and pricing information for evaluation.

1.2 Background

The Complete Communities program, supported by the Ministry of Housing and administered by UBCM, is designed to assist local governments and modern Treaty First Nations in advancing identified community goals through the creation of more complete communities. These communities are characterized by diverse housing options, accessible amenities, and services within a 15 to 20-minute walk, as well as increased transportation options to support walkability and connectivity. The Ministry of Housing has allocated \$10 million in funding for this initiative, with UBCM overseeing program administration.

The program aligns with commitments outlined in the [CleanBC Roadmap to 2030](#), which aims to achieve emissions reduction targets while fostering a cleaner economy. As signatories to the Climate Action Charter, all local governments in BC are committed to creating more complete, compact, and energy-efficient communities, and the Complete Communities program provides support in fulfilling this commitment.

The Complete Communities program aims to enhance the ability of local governments and modern Treaty First Nations to make evidence-based land use planning decisions. This includes: assessments of current community completeness, analysis of strengths, opportunities, challenges, and potential actions aligned with community goals; and the development of implementation plans. To support alignment with program objectives, the Ministry of Housing [Complete Communities Guide](#) is available as a resource.

The “Whistler Complete Communities Geospatial Land Use Assessment” is a result of a successful grant application submitted to the Complete Communities program. For this Project, a 'complete community' is defined as one that accommodates people at all stages of life, provides a variety of housing options, and offers a range of employment opportunities, amenities, and services within walking distance.

3.0 SPECIFIC PROJECT REQUIREMENTS

3.1 Scope of Work

The Project’s key purpose is to complete a geospatial land use assessment of current community completeness through at least three of the following four lenses: housing, transportation, daily needs, and infrastructure. While at least three is the requirement of the grant, the RMOW is hoping that all four lenses will be included in the Project.

The Project aims to support and enhance the RMOW’s ability to make evidence-based land use planning decisions by establishing a baseline of Whistler’s current community completeness. The findings of the assessment will support the advancement of multiple initiatives identified in the RMOW’s 2023-2026 Strategic Plan and Housing Action Plan.

Proponents are invited to bid on one, two, or all three phases of work outlined below. The phases are designed to complement the process outlined in the [Complete Communities Guide](#). References to the applicable sections of the guide are included in *italics*.

The selected Consultant will report to the RMOW Project Team and provide regular updates on the progress of work throughout each phase noted below. After Phase 1, advancement to subsequent phases will be conditional on the outcomes of the previous phase, time, and available budget, and subject to approval from the RMOW Project Team.

Phase 1 – Prepare

- Understand Community Goals:
 - Review the Project’s goals and objectives.
 - Outline community goals.
- Data Evaluation and Indicator Selection:
 - Conduct a comprehensive review of available datasets required for indicator analysis and mapping. As data permits, the RMOW would like indicator calculations and mapping to be completed for the [Whistler Urban Development Containment Area \(WUDCA\)](#), but recognizes the geographic scope of what is possible will be better understood at the end of Phase 1.
 - Compare available data and data readiness to the list of suggested indicators outlined in the [Complete Communities Guide](#).
 - Acquire any additional third-party supplied data recommended in the [Complete Communities Guide](#).
 - Provide suggestions for additional data sources.
- Define Phase 2 Scope of Work:
 - Based on the outcome of the Data Evaluation and Indicator Selection step, work with the RMOW Project Team to define the scope of work for Phase 2.
 - Depending on the quality and completeness of the data available, the subsequent phase could include one or both of the following tasks:
 - Additional data collection and/or clean-up; and/or
 - Commencement of the indicator analysis and mapping.

Phase 1 Expected Deliverables:
<ul style="list-style-type: none"> • List of acquired or provided data. <ul style="list-style-type: none"> ○ For each dataset in the list, a completeness assessment and gap analysis.

○ For each dataset in the list, steps required to update any incomplete layers.
○ For each dataset in the list, other relevant information noted by the Consultant.
● Shortlist of mapping indicators feasible with existing data.
● Defined Scope of Work for Phase 2.

Phase 2 – Prepare and/or Assess

Based on the findings from Phase 1, Phase 2 could involve data collection and/or data analysis.

- Data Collection:
 - Work with the RMOW Project Team to complete datasets and address data gaps.
 - Conduct ground-truthing, automated or manual document scanning and data entry, and spatial digitization as needed.
- Data Analysis:
 - Complete analysis for shortlisted indicators (as identified in Phase 1) using available datasets.
 - Define study area and perform indicator calculations and mapping.
 - Develop scenarios and execute scenario testing to identify actions for meeting community goals if data, time, or funding allows.

Phase 2 Expected Deliverables:
● Data Collection:
○ Completed datasets as defined by Phase 1.
○ Report detailing methodologies and assumptions.
● Data Analysis:
○ Documentation of indicator analysis and scenario testing outcomes, including steps taken, methodology and assumptions.
○ Packaged ArcGIS Pro scripts/models for each of the generated indicators. It is intended that this deliverable would be a product that can be used by the RMOW for future analysis.

Phase 3 – Assess and/or Act

- Completion of indicator calculations and mapping for remaining indicators, as time and funding allow.
- Continuation of scenario testing, as time and funding allow.
- Development of an implementation plan for achieving the RMOW’s complete community goals.

Phase 3 Expected Deliverables:
● A final Project report that sets out: key assessment findings; identified strengths, opportunities, and challenges to increase community completeness; and a comprehensive implementation plan including a monitoring and reporting framework for each action.

3.2 Work Excluded

The following work will not be required of the Consultant and is not included in the scope of work for this Project:

40%	Below	Does not meet expectations or minimum requirements.
20%	Well Below Requirements	Fails to meet minimum requirements; proposes a solution or provides explanations that are not acceptable or relevant.
0%	Unacceptable	Proposed solution deemed unacceptable in every aspect.

6.3.1 Project Understanding

The Proponents will be scored on their understanding of the Project as described in Section 3.0. The Proposal needs to illustrate an understanding of the RFP requirements, the needs of the RMOW and any proposed augmentations to the RFP to ensure that the objectives of the Project will be fully met. The evaluation team will take the entire proposal submission into consideration when evaluating the Project Understanding section.

Scoring

The following prompts will be used to determine the criterion score:

Prompts
Is the overall approach tailored to the needs of the RMOW as described in the RFP?
Is the Proposal easy to read and concise?
Does the Proposal acknowledge all criteria in the Specific Project Requirements accurately?
Do any Proposed augmentations conflict with the needs of the RMOW?

6.3.2 Technical

The Proponent will be scored on their work plan to perform the Project and shall express high level solutions to the tasks in the Specific Project Requirements. The evaluation team will take the entire Proposal into consideration when evaluating the Technical section.

Scoring

The following prompts will be used to determine the criterion score:

Prompts
Is the WBS/work plan plausible and tailored to the needs of the RMOW?
Is the reasoning behind the methodology sound and well explained?
Have the methods described in the work plan previously been used in past projects and were they successful? Is there evidence that this is the optimal solution for this scope of work?

6.3.3 Qualifications and Experience

Qualifications of the Proponent and the Proponent's team are to be submitted according to Sections 4.7 and 4.8. Only qualifications that are relevant to the Specific Project Requirements will be considered when evaluating this section. References may or may not be contacted.

Scoring

The following prompts will be used to determine the criterion score:

Prompts
Qualifications of the personnel and how they relate to the tasks they are responsible for as described in the Proposal.
Proponent team's experience with similar projects within the last five (5) years. Submitted experience beyond the previous five (5) years will not have weight on the scoring.
Technical and management capability, capacity, skills and qualifications of the Proponent and any proposed subcontractor(s).
Work performed for submitted references is by the proposed team members and is within the last five (5) years and is relevant to the scope of work of the Project.

6.3.4 Timeline

Timelines that do not align with the completion date described in Section 3.3 may be scored lower. Alternative timelines to Section 3.3 accompanied with explanations that the evaluation team deems to not interrupt or inconvenience the RMOW will not be penalized. Timelines that are ahead of the completion date may or may not receive more marks than timelines that meet the milestone dates and is up to the discretion of the evaluation team.

Scoring

The following prompts will be used to determine the criterion score:

Prompts
Tasks are based on the work plan with start and end dates for each task.
Proposal includes milestone dates and deliverables.
Timeline items are adequately broken down and easy to follow.
Start and end dates for each task are realistic with reasonable lead times.

6.3.5 Cost

Cost evaluation is broken into two parts: the total cost and the fee schedule cost breakdown. The total cost is worth 80% of the points available and the fee schedule is worth 20% of the points available.

Scoring

The following prompts will be used to determine the criterion score:

Prompts	Weighting
The total cost will be evaluated using the following equation: $\frac{\textit{Lowest Priced Acceptable Proposal}}{\textit{This Proposal's Price}} \times \textit{Points Available} \times 80\%$	80%
The fee schedule is adequately broken down and easy to follow.	20%

6.4 Interview and/or Presentation

Selected Respondents may be requested to attend an interview with the RMOW's evaluation team and/or make a presentation to the evaluation team.

Respondents may be asked to clarify or verify any part of their Proposal and/or presentation.

The RMOW, at its sole discretion, may adjust their scores for the desirable criteria after clarification and/or verification of the Proposals. The highest scoring Respondent ("Preferred Respondent") will be selected by adding the scores from the desirable criteria evaluation and from the presentation. The Preferred Respondent will then proceed to the next stage of the evaluation.

RMOW shall provide to the Consultant its conflict of interest and standards of business conduct procedures. The Consultant shall comply with RMOW's conflict of interest and standards of business conduct procedures as provided notwithstanding the Consultant is an independent Consultant and not an employee of RMOW.

10.2. No Conflict with Other Relationships

The Consultant will not, during the Term, perform a service for or provide advice to any person, firm or corporation if in the reasonable opinion of RMOW, such performance will give rise to a conflict of interest between the Consultant and RMOW, and the Consultant shall take all steps to ensure the avoidance of all

direct or indirect conflicts of interest (either actual or potential) between the interests of the Consultant and its directors, officers, servants, agents and employees, and those of RMOW.

10.3. Disclosure of Conflict of Interest

The Consultant will immediately disclose all conflicts of interest and potential conflicts of interest to the RMOW as soon as any real or perceived conflict of interest arises.

10.4. Good Faith

The Consultant will discharge the Consultant's obligations to the RMOW in all dealings and transactions relating to the Services in the utmost good faith.

11. INDEMNIFICATION

11.1. General Indemnity

The Consultant shall indemnify and save harmless the RMOW, its elected officials, officers, employees, servants and agents from and against any and all losses, claims, demands, damages, actions, causes of action, fines, penalties, liens, costs and expenses the RMOW may sustain or incur at any time, either before or after the expiration or termination of this Contract, arising directly or indirectly by reason of negligent acts, errors, or omissions or wilful misconduct of the Consultant or any agent, employee, director or officer of the Consultant in connection with this Contract including any injury to or death of any person or any damage to any and all persons or property, whether deliberate, accidental or through negligence except to the extent that any such claim arises solely from the negligence of RMOW, its other Contractor(s), assigns(s) or authorized representatives.

RMOW shall indemnify and save harmless the Consultant, its elected officials, officers, employees, servants and agents from and against any and all losses, claims, demands, damages, actions, causes of action, fines, penalties, liens, costs and expenses the Consultant may sustain or incur at any time, either before or after the expiration or termination of this Contract, arising directly or indirectly by reason of the negligent acts or omissions or wilful misconduct of the RMOW or any agent, employee, director or officer of the RMOW in connection with this Contract including any injury to or death of any person or any damage to any and all persons or property, except to the extent that any such claim arises solely from the negligence of the Consultant, its sub-Contractor(s), assign(s) or authorized representatives.

Neither party shall be liable to the other in connection with any claim for any special, incidental, indirect or consequential loss or damages excepting always that this indemnity does not apply to the extent, if any, to which the claims are caused by errors, omissions or the negligent acts of the party seeking indemnification, its other contractors(s), assign(s) and authorized representatives.

The maximum aggregate liability of the Consultant for any loss or damage sustained by the RMOW in connection with this Contract (whether as a result of negligence or otherwise) shall not exceed \$2,000,000.00.

11.2. Survival

The provisions of this indemnity clause will survive termination of the Contract.

12. TERMINATION

12.1. Default of Consultant

Notwithstanding any other provision of this Contract, if the Consultant is not performing the Services to the satisfaction of the RMOW or fails to perform the Services as and when reasonably requested by RMOW, or is in breach of any provision of this Contract, the RMOW may, at its option, either:

- (a) Issue written notice to the Consultant requiring that such default be corrected. If within 5 Business Days after receipt of such notice such default shall not have been corrected or reasonable steps taken to correct such default, then at the sole discretion of the RMOW, the

RMOW may give a further written notice to the Consultant immediately terminating this Contract, or:

- (b) Terminate this Contract giving 5 Business Days' notice of termination to the Consultant.

In the event the RMOW exercises its option to terminate, the RMOW may withhold payment of any amount owing to the Consultant under this Contract for the provision of the Services, set-off any damages suffered by the RMOW against any amounts owing to the Consultant under this Contract for provision of the Services and pursue other remedies to recover damages from the Consultant for any losses caused to the RMOW as a result of the Consultant's performance under this Contract.

A material breach of the privacy obligations of this Contract would be grounds to terminate the contract.

12.2. Termination Without Cause

Notwithstanding any other provision of this Contract, the RMOW or the Consultant may terminate this Contract for any reason upon giving not less than ten (10) days written notice of termination to the other party. The Contract may also be terminated in a shorter period of time as may be mutually agreed upon in writing by the parties. In the event that notice of termination is given pursuant to this section, the RMOW will pay the Consultant that portion of the fees and expenses described in this Contract which equals the portion of the Service that was completed to the RMOW's satisfaction before termination. Such payment will discharge the RMOW from all further liability under this Contract. Concurrently with termination by the RMOW pursuant to this Section, all obligations of the Consultant to perform the Services will terminate, excepting those performance obligations set out at Section 12.5 herein.

12.3. Default of RMOW

If the RMOW fails to make payment to the Consultant in accordance with this Contract, then the Consultant may, by written notice to the RMOW, require that such default be corrected. If within 5 Business Days after receipt of such notice such default shall not have been corrected, or reasonable steps taken to correct such default, the Consultant may, without limiting any other right or remedy it may have, give a further written notice to the RMOW to immediately terminate this Contract. In such event, in addition to any other rights or remedies the Consultant may have, the Consultant shall be paid by the RMOW for all Services performed pursuant to this Contract and remaining unpaid as of the effective date of such termination.

12.4. Limitation of Liability

The Consultant agrees that notwithstanding anything herein or any duty, principle, term or rule of law to the contrary, whether express or implied, RMOW shall not be liable to the Consultant for any loss or damage of any nature whatsoever flowing from early termination of this Contract, including without limitation any special, incidental, direct, indirect or consequential damages arising out of such early termination nor shall RMOW be under any obligation to the Consultant save and except for the payment for such Services as may have been performed in accordance with the terms of this Contract up to the date of termination.

12.5. Warranties to continue

If for any reason the whole or any part of this Contract is terminated, the Consultant's obligations in this Contract as to quality, correction and warranty will continue in force after such termination with respect to the Services performed by the Consultant up to the time of termination.

13.1. Right to Make Changes

The RMOW reserves the right to request changes at any time as a result of requirements, site conditions, emergencies, government regulations or any other reasonable cause and:

14.1. Maintain Insurance

The Consultant agrees that they shall maintain and pay for insurance on the terms, including coverage, amounts and deductibles outlined in Schedule B.

The Consultant acknowledges that any requirements of the RMOW as to the amount of coverage under any policy of insurance will not constitute a representation by the RMOW that the amount required is adequate and the Consultant acknowledges and agrees that the Consultant is solely responsible for obtaining and maintaining policies of insurance in adequate amounts. The insurance policy coverage limits will not be construed as relieving the Consultant from responsibility for any amounts for which the Consultant may be legally liable which may exceed these limits.

14.2. Evidence of Insurance

Upon the request of RMOW, the Consultant shall provide the RMOW with evidence of insurance in a form satisfactory to the RMOW.

14.3. Waiver of subrogation

The Consultant hereby waives all rights of recourse against the RMOW for loss or damage to the Consultant's property.

14.4. Notice of Claims

If at any time during the provision of the Services or the Consultant becomes aware of a claim or potential claim against any insurance policy that the Consultant has, pursuant to this Contract, indicated to the RMOW may apply to the Services then the Consultant will immediately advise the RMOW in writing of such claim, including particulars.

15. ASSIGNMENT AND SUBCONTRACTING

15.1. Consent Required

The Consultant will not assign this Contract or any part thereof without the prior written consent of the RMOW. No assignment or subcontract, whether approved or not, shall relieve the Consultant of its obligations under this Contract except to the extent those obligations are in fact properly performed. In the event the RMOW approves a subcontractor, the Consultant shall secure compliance and enforce at its own expense for the benefit of the RMOW, each of the Consultant's contracts with subcontractors. Nothing contained in this Contract shall create any contractual relationship between the subcontractor and the RMOW. The Consultant agrees to bind every subcontractor to the terms and conditions of this Contract which are appropriate and applicable to the services to be provided by the subcontractor and the Consultant shall be fully responsible to the RMOW for the acts and omissions and errors of all subcontractors and of persons directly employed or contracted by them.

Both parties agree not to make a request for arbitration or to commence litigation without first seeking agreement through the mediation process. The mediator shall be appointed by agreement of the parties. If the parties cannot resolve the dispute within 30 calendar Days following the mediation, then with the consent of both parties, the Dispute may be referred for determination through arbitration under the Arbitration Act (British Columbia), and in the event that both parties do not so consent then either party may commence litigation to have the Dispute settled.
