A – Addendum #1

RFP – WWTP Supply and Delivery of Acetic Acid

QUESTION	ANSWER
Please provide how many totes the plant typically takes per order, and how many they could potentially take if pricing was attractive for it?	The plants' average order size is 4 – 8 totes per delivery. We don't anticipate ordering less than 2 per delivery. The plant can store 10 to 20 totes, depending on the time of year.
Can vendors visit the WWTP while the RFQ is open?	A non-mandatory site meeting will be held on Wednesday, March 13, 2024 at 10:30 am. The meeting will be held at the WWTP, 1135 Cheakamus Lake Road, Whistler, BC V0N 1B1.
